OYAMA ADVANCES

DRIVING BACK THE RUSSIANS

Japanese Commander Seeks to Hurry Peace Negotiations by Routing the Enemy.

London, June 19.—Notwithstanding the preliminary negotiations for peace, which Russia has not entirely accepted, the Japanese in the interim made an advance in force along the whole line, and attacked and drove back the Russians in four districts in Manchuria. He inflicted heavy loss, and the enemy retreated in great confusion at every point, leaving many dead and much supplies. The Japanese casualties were thirty killed and 185 wounded. The Russians left eighty dead at one point, so their losses must be very great. Figures as to that however are unknown.

Recovered the Valuables

Bellingham, Wash., June 16.—The \$864,000 worth of securities stolen from the safe of the Dominion Express Co. in the robbery of the C.P.R. overland, near Mission Junction last September, have been recovered.

It was effected through the agency of a cell mate of "Bill" Miner, the man who is supposed to have been the leader of the train robbers, during the time Miner served a sentence in San Quentin prison, California.

The man who carried out the transaction claims to have had the assurance of the C.P.R. Co. and Dominion Express Co. that Miner will be exempted from prosecution.

A few weeks after the robbery occurred Miner's former cell-mate was employed by the C. P. R. to recover the securities. He came to Bellingham, and under the name of Brown, has been conducting negotiations for the return of the securities since that date.

While passing as Brown, it is known in this city that his real name is "Jake" Terry, and that he served one term in prison for counterfeiting and another for smuggling. While under a ten years' sentence in San Quentin prison, he became acquainted with Miner. After the two were released they left California, came to this section and were associated for some time, but finally drifted apart.

Yesterday Terry stated that his mission had been accomplished, and that the securities were in his possession. He stated further that Miner would never be arrested for the train holdup, and that his work in the case would be concluded when other men connected with the case were arrested and extradited. He says the other men are known and information of their present location is in the hands of the Canadian authorities.

Some officers are inclined to believe Terry was one of the men who assisted in the hold-up and that he has played the C. P. R. and Dominion Express Co. both ways, receiving a share of the booty secured from the looting of the Express Co's strong box and the reward for his return of the securities.

SUNDAY SCHOOL PICNIC

Nearly two hundred children, young and grown up, from Grace Methodist Sunday school, picnicked Saturday afternoon on the east and bell grounds. The afternoon was spent in racing and games. The most exciting feature was a baseball match between the junior nine and a scratch team of the teachers and officers. The game was fast and furious. The senior team, most of whom had never played the game before, made some remarkable play and succeeded after most strenuous efforts in piling up a score of 20 to the junior's 17.

After the game supper was served and the first picnic of the Sunday school came to a close and the tired but thoroughly satisfied youngsters attended their way homeward.

Norwegian Confesses to the Murder of John Whitaker, a Grenfell Farmer

Broadview, Man., June 19. — John Whitaker, who resided south of Grenfell, was found dead in a field on June 1st, supposed to have been killed by a kick from a horse which he had at work in the plow. His friends were satisfied with this view of his demise, and the burial took place accordingly. Some other settlers however, were suspicious of the nature of the death wound and gossiped about it. The famous Sgt. Fyffe of the R. N. W. M. P. heard of the talk and inquired into the matter. He found the suspicious well founded and had the body disinterred. An inquest held by doctors Argue, of Grenfell, and Allingham, of Broadview, disclosed the startling fact that the man had been foully murdered. On Saturday Fyffe traced certain suspicious circumstances to one Peter Moe, a Norwegian lately arrived, and arrested him. He confessed the crime.

REV. DR. ROBERTS DEAD

Rimney, Alta., June 19.—Dr. J. G. Roberts is dead. He was a brother of Canon Roberts of Fredericton and an uncle of C. G. D. Roberts the well known Canadian author.

BASEBALL TO-NIGHT

There will be a baseball game on the local grounds this evening between Fort Saskatchewan and the "Capitals," the weather permitting. The Fort is coming up to retrieve their loss of the 24th, and a good hot game may be expected. The local team will line up as follows:

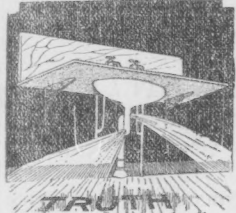

Till, I. F.; Hunt, I. B.; Dobson, C.; Schenk, T. B.; Malony, T. B.; Denton, S. S.; Milne, C. F.; Bishop, C. F.; Johnson, P.

TRAINS COLLIDE

WITH GREAT LOSS OF LIFE

Twenty-five Railway Men Killed in a Wreck Near Baltimore

Baltimore, June 19. — Twenty-five were killed and a score or more seriously injured, in a wreck Saturday near a small station called Patapsco. A passenger train running at a high rate of speed, crashed into a double header freight and all the engines were reduced to scrap iron. All the killed and injured were train hands or members of the wreckage crew. The latter were riding on a baggage car, and the passenger engine, having just cleared away another wreck. The regular passengers escaped with small injury. Bodies are still lying under the wreck, which is on fire. The injuries of the wounded were many of them horrible, and many died on the relief train.

THE TRUTH WILL LEAK OUT, but water comes in jets, if it were the other way we'd all have to be honest and we wouldn't need

THE PLUMBER

As things are, however, all we can do is to employ an honest plumber who knows his business—one who will put in good material and put it in to stay. That's what we try to do here. We supply everything necessary for fitting up the bath-room and we do the fitting ourselves.

What They Fought Each Other For

Peace is surely not far off when Russia and Japan agree to appoint plenipotentiaries to consider the situation. These representatives, as this name indicates, will have power to bind their respective nations to any agreement they may arrive at. In the meantime the armies will rest on their arms. Japan will withdraw not a foot from Manchuria, but will be prepared to resume the war the moment Russia rejects her terms. Our readers must not suppose that the conference which is impending will resemble an arbitration. The only point which remains in doubt is the amount of the indemnity Japan will demand. Those demands which she made before the war began will not figure in the negotiations. They have been won by the sword.

It is interesting to recall, at this juncture, the negotiations which led up to the war, and to glance at the Russian policy which finally made peace impossible. Briefly, then, Russia's aim for generations has been to establish herself on the Pacific. When her planing began she was absolutely cut off by Chinese territory; but it became the duty of her diplomats to exert influence at Peking, with a view of establishing the desired outlet upon her eastern border. An opportunity favored her in 1860, when the British and French troops had occupied the Chinese capital. The wily Russian representative deluded the Chinese court into the idea that the British and French governments plotted to remain in Russia, however, could induce them to leave, at a price. The price was a stretch of Manchuria, lying on the coast. A bargain was struck, and sure enough the foreign troops did leave, although Russia had nothing to do with the matter. Thus was acquired the first slice of Manchuria. It is in this tract that Vladivostok is situated.

In 1891, when the Trans-Siberian Railway was projected, Vladivostok was, of course, selected as the eastern terminus. It answered the purpose well in summer, but in winter was icebound. A port open all the year round was most desirable. Moreover, even to reach Vladivostok the road must curve far to the north. Could a concession be secured further south to permit a shorter route, and a warm water port at the end of it, this would be indeed a triumph. Luck was with Russia again, for in 1895, when Japan and China were patching up a peace, the powers stepped in and began to help themselves. When the smoke had cleared away Russia had her paw on another strip of Manchuria, and held Port Arthur also. Then there came the Boxer outbreak, and another successful grab on the part of the bear. It was obvious that Russia's object was to seize every foot of Manchuria and Mongolia which was not nailed down. She had designs, too, on Korea.

The menace to Japan was too plain to be misunderstood and the islanders began quietly to make their preparations. They resolved on a protest, and in the event of its being disregarded they made ready for war. Up to July, 1904, events had moved slowly. In this month a swifter current bore the two nations along to the whirlpool whence Japan now emerges, dripping, but debonaire. Japan's formal protest to St. Petersburg was made on July 28. The Mikado desired to know when the Czar intended to remove his troops from that part of Manchuria which they had occupied unlawfully since the Boxer outbreak, but, according to the Czar, temporarily. The Japanese Government also wished an assurance that her sphere of influence in Korea would be recognized. The permanent occupation by Russia of Manchuria would be prejudicial to the security and interests of Japan, while the independence of Korea was "absolutely essential to Japanese repose and security." The Russian Government was asked for an early assurance on these points.

Three weeks passed and Russia remained dumb. Pressed for an answer, Count Lamsdorff explained that in the Czar's absence he could not reply at once. He asked, however, that the negotiations be transferred from St. Petersburg to Tokyo. That capital being nearer the scene, and not so far from Viceroy Alexieff, who would certainly have to be consulted. The Japanese Premier instructed his Minister to say that Japan would prefer to continue the negotiations where they had begun in view of the fact that Alexieff was notoriously an enemy of Japan. Nevertheless, at the Czar's request, he consented to have the scene shifted. This was on September 9. Port Arthur then became the centre of interest, and from there on October 5, Alexieff issued Russia's counter-proposal, which conceded virtually nothing. Ten days later Japan's amended proposals were issued.

That was on October 13, 1904. All through November and December the Japanese government pressed for a reply. At first it was told that the Czar had decided that negotiations would be continued. But no one was authorized to negotiate. Still later it was stated that the illness of the Empress was causing delay. The Tokyo government kept urging for a decision. On December 11 came further proposals from Russia, having no reference whatever to Manchuria. Japan protested. Its ambassador intimated to Russia that it might cause "serious difficulties, even complications, if we failed to come to an entente." On January 6 Russia was willing to guarantee Japan in its treaty rights and privileges in Manchuria. Still Japan, on the 13th, pressed for a Russian declaration of the independence of Manchuria. On the 23rd of January Japan requested a reply. On the 26th Japan notified Russia that its silence accentuated the gravity of the situation. Then the Russian Minister said the reply would be ready by February 3. No reply arriving on the 6th, Japan broke off negotiations and fired the first shot on the 8th.

THREE YEARS OLD

WHEN the tobacco I have personally selected in Cuba is delivered at my factory, I begin a special treatment to still further cure it—develop its delightful aroma.

This special treatment requires two to three years, depending on the "crop."

I work it thoroughly—through various processes of fermenting and drying in specially made apparatuses that enable me to keep the tobacco in each process at certain fixed temperatures and moist or dry at such a degree of humidity—necessary to bring out the virtues I insist on in each cigar.

By having the filler so aged and treated, I make my Pharaoh a smooth, palatable smoke—one with a delicate incense-like flavor and very even combustion.

The binder and wrapper are the Connecticut Broadleaf and the imported Sumatra respectively—both tobaccos that delight the epicure.

MASS MEETING LAST NIGHT

The mass meeting held by the McMaster band in the rink last evening drew one of the largest audiences in the history of public meetings here. The large body of the building and the wings were well filled. The choir of the Presbyterian church led the singing. The male quartette of the band gave several selections. Songs were also rendered and several brief stirring addresses made. Many remained to the after service.

The band continue to hold services in the Presbyterian church during the week. At 4.15 today a service for boys and girls between 9 and 12 years will be held, and tomorrow at the same hour a service for boys from 12 to 18 years.

WITH A
Chatham Incubator

Poultry raising with a Chatham Incubator is a very profitable and easily managed occupation. Unless you want to go into it extensively it need take but very little of your time. Government reports show that the demand for chickens in Canada is greatly in excess of the supply and Great Britain is always clamoring for more. That means a steady market and good prices for chickens.

You cannot raise chickens successfully with a setting hen. She is wasting time setting when she should be laying. While she is hatching and brooding a few chickens she could be laying five or six dozen eggs. The percentage of chickens she hatches is much less than that produced by the Chatham Incubator.

It will pay you to own a Chatham Incubator.

Chatham Incubators contain every improvement of importance in incubator construction that has been produced. They are made of thoroughly seasoned wood, with two walls, case within case. Between these walls mineral wool is packed forming the very best insulation. Each piece of the case is mortised and grooved and screwed, making the whole as solid as a rock. Chatham Incubators are equipped with scientifically perfect regulators which are an indispensable means of regulating the temperature.

No cash to pay until October, 1905.

We will start you raising poultry for profit with a Chatham Incubator without one cent of money from you until next Fall. That means that you can take off seven or eight hatches and make considerable money out of the incubator before the first payment becomes due.

We couldn't make this offer if we were not certain that if you accept it you will get complete satisfaction, if we were not positive that the Chatham Incubator will pay you a handsome yearly income.

This is a straightforward offer. We make it to show our supreme confidence in the Chatham Incubator. We want you to accept this offer as we are sure of the satisfaction our incubator will give. Every machine we have put out so far has made other sales in the same neighborhood.

Our offer is to send you a Chatham Incubator at once, freight prepaid by us without one cent of cash from you. You make your first payment in October, 1905. The balance is to be paid in October, 1906, or if a Cash Buyer you get it cheaper. Could any offer be fairer or more generous?

Winnipeg, June 19.—A trailer on a ball game train running to River park on Saturday, became uncoupled on Main street bridge and crashed into a bridge girder. The train was going at a fair speed, and consequently everybody in the first seats was more or less injured in the smash. Three members of the Winnipeg Telegram staff, sitting in the front row, got it more than others, viz., Frank Kramer, Kempton McKim and Chester Hopkins. The first two were crushed between the car and the iron post of the bridge.

JACK THE RIPPER.

Montreal, June 19.—During a Sunday morning the naked body of a woman, forty years old, was found on Esplanade avenue. It was hideously mutilated with a knife and the brains had been beaten out. The woman was named Mary Quinn, was an eccentric character, and lived in a shanty on the Avenue. The police are at a loss to find the murderer.

COLLISION ON THE LAKES.

Soo, Mich., June 19.—During a fog the steel freight steamers Etruria and Amassa Stone collided in Lake Huron. The Etruria was so damaged that she sank in a few minutes. The crew narrowly escaped. Many were in their berths at the time. The lost steamer registered 4653 tons and was valued at \$250,000.

I TAKE extreme care of every leaf of tobacco that I buy. Ordinarily a "hand" of tobacco is soaked in water when it is received—I simply moisten the leaves in such a way as to only slightly dampen every part of every leaf. By this means the strength of the tobacco is not impaired—its smoking quality—fragrance and pungent deliciousness, is conserved to the smoker intact.

WESTERN NEWS NOTES.

—Calgary Herald: The following horses have returned from the Manitoba circuit: Zaza, Gawan, Katy Bell, Figuredown and Young Marlow. The horses will rest here and then go north to start at Edmonton. These horses won a number of good races in Manitoba.

—A Fort Francis despatch of June 10 says: A big fire swept through the town this morning, destroying the following business buildings: The Albertan hotel, Houbek's restaurant, Erickson's bakery, Strain's barber shop, W. Baker's tailor shop, Scott's jewelry store, Fort Francis Hotel, tourist's outfit shop, Koochiching Hotel, Wens hardware store, Bank of Commerce, Nelson's clothing store, Frazer's drug store. The estimated loss is \$200,000. The cause of the fire is unknown at present.

—Calgary Herald: Tomorrow afternoon a meeting will be held for the purpose of organizing a company to establish in Calgary a large and important manufacturing enterprise. The company will be composed partly of capitalists and partly of western men. It will have an authorized capital of half a million dollars. The enterprise will use vast quantities of raw material, such as limestone, coal, etc., all of which will be employed in the manufacture of an extensive scale of Portland cement.

CRICKET.

(Continued)

The Edmonton XI played poorly last Saturday at Strathcona and were defeated by 28 runs. The totals were 36 and 47, against 62. There was not time to play the game fully out. The local club was not as strongly represented as possible; and in future we hope that the best teams available will be selected.

The ground in Strathcona is not good and we trust that the pitch will be in better condition before we play there again. The three cup matches will be played on July 10, August 12, and September 16. The first and last of these will take place in Strathcona. The grounds committee are asked to be present on the ground this evening at 8 p.m. The committee meeting will follow at 9 o'clock, also on the exhibition grounds and among other business announced the appointment of a third party on the selection committee will be made. All members of the committee are invited to be present.

Next Saturday a team composed of bankers, ex-bankers and the H. B. Co. will play against the club. The match will commence at 2.30 sharp.

—Quite a stir was caused in the northwestern part of the city Saturday afternoon when the little daughter of Geo. H. McLeod was found to be missing from home at the corner of 5th street and Peace avenue. The police were notified and a search at once instituted which resulted in finding the child in the eastern part of the city near Fraser's mill.

HOT AIR FURNACES

If you have any idea of heating your house with hot air, it will pay you to look into the
"PEASE."

This Furnace is considered one of the very best made, and when installed by a first class mechanic is sure to give satisfaction. Ross Bros. are the sole agents for this district, and they employ none but the best workmen, as some of the following testimonials from some of our best known citizens should convince you. We have a large number of these testimonials, every one of which is from gentlemen who have used the PEASE FURNACE.

We put a large number in Edmonton during last year, and in every instance the purchasers were well pleased, and do not hesitate to speak in the highest terms of them.

Sole Agents for Edmonton ROSS, BROS. Limited.

Ross Bros.,
Gentlemen:—

The hot air heating system that you installed in my house last summer, and which has been thoroughly tested during the past winter, has given me splendid satisfaction. All parts of my house, which are in an exposed position on the crest of the river bank, were comfortably heated at all times. The coal consumed during the winter was not large, and it burns the Edmonton coal perfectly. I am very well satisfied with the heating system, and the workmanship and the material used on the job is of the best, and would recommend your furnace to any one.

Yours truly,
MALCOLM GROAT.

Ross Bros.,
Gentlemen:—

Replying to yours re the furnace I purchased from you and which your workmen put in my store (The Hudson Bay Store) I am well satisfied with it. The store is 35 x 40, with a 15 foot ceiling, plate glass front, and when the thermometer stood a 22 below zero the store was easily heated to 90 degrees. The workmanship is first class in every particular. The fuel consumed is small considering the results we get. There is no smoke or leakage of gas, and the furnace is very easily managed. I can heartily recommend your furnace to any intending purchaser, as I am sure there can be no fault found with them.

Yours truly,
JAMES H. WOOD.

Ross Bros.,
Gentlemen:—

Regarding the warm air furnace which you installed in my house, I may say that I am perfectly satisfied with it. I had no difficulty whatever in heating the whole house in all kinds of weather. No heat is wasted in the cellar, and I had no trouble with the pipes not working in windy weather. I find it easy to manage, and economical on fuel, and were I to build again, I would have no other kind of furnace, and I would recommend it to any person wanting one.

Yours truly,
W. H. COOPER.

Ross Bros., Limited,
Gentlemen:—

The furnace you placed in my house last year has given us the very best of satisfaction, and every room in the house is evenly heated, and I find that it burns the Edmonton coal very economically, and is easy to manage and free from dust or gas. I would cheerfully recommend it to anyone.

Yours truly,
KING POWELL.

Ross Bros., Limited,
Gentlemen:—

The Furnace you placed in the house I live in (owned by J. N. Pomereu) has given us perfect satisfaction. In fact we can make it too warm to live in if we were to let the furnace burn freely, and have never been troubled with either smoke, gas or dust. I find it very easy to manage, and I am certain we could not keep the house as comfortable with stoves on anything like the same amount of fuel, and would recommend it to any person wanting a good Furnace.

Yours truly,
J. B. MERCER.

Ross Bros.,
Gentlemen:—

After using your Furnace all winter it gives me great pleasure to recommend it to any one. I used another make of Furnace for four years in the same house, previous to getting this furnace from you, and find your Furnace a great improvement over the old one. I find it free from dust, gas or smoke, and easy to manage, and that the grate burns the Edmonton coal perfectly. My house is more evenly heated with only a little over half the fuel, and I might say that the material and workmanship in connection with the installation of the Furnace is of the best.

Yours truly,
R. J. MANSON.

Messrs. Ross Bros.,
Gentlemen:—

The Furnace you installed in my house last summer has given me perfect satisfaction in every respect, and free from gas or dust, and find that I got more heat from less fuel out of your Furnace than I could from the old Furnace you took out. Therefore would cheerfully recommend your Furnace to any person wanting one.

Yours truly,
C. W. CROSS.

Ross Bros.,
Gentlemen:—

The hot air heating system that you installed in my hotel, has proved to be all and more than you represented it to be, and would not change it for the old system if I had to pay double what it cost me, as I find your Furnace only uses about half the amount of coal that the old Furnace used. In fact one Furnace now heats the whole hotel, except in extreme cold weather, while it took both the old Furnaces going full blast all the time to heat the hotel other winters.

I find your furnace not only a fuel saver, but easy to manage, free from dust, smoke or gas, and would be pleased to recommend it to any person wanting one.

Yours truly,
J. J. MELLON, Strathcona.

ANOTHER WONDERFUL CASE.

Here is something that will be welcome news to many a discouraged one.

"For several years I have been troubled with gas around my heart, shortness of breath, in fact, if I walked my usual gait my breath would get so short I would be compelled to make several stops during my walk."

"Of late my food did not digest properly. It turned sour in my stomach, causing me great distress; often, too, I had disagreeable attacks of belching gas and heartburn."

"I was bothered with severe pains across the small of my back and the least bending or turning would cause me to almost cry out."

"I was induced to try Dr. Leonard's Anti-Pill and from the very first found relief."

"For the last three months I have had no recurrence of my former complaints, so I am bound to say Anti-Pill has indeed cured me."

This is the voluntary statement of Wm. H. Reed, of 165 Queen St., Kingston, Ont. All Druggists sell Anti-Pill. The Wilson-Pyle Co., Limited, Niagara Falls, Ont. &

The remedy that cured such an extreme case is surely worth trying.

Fit-Reform

Blue Serge That Stays Blue

"West of England" Serge Suits are guaranteed all the way through.

And the guarantee holds good about the color just as it does about fabric and tailoring and fit.

"West of England" Serge is fadeless and changeless. It defies summer suns—and stays a rich, dark blue as long as you wear the suit.

"West of England" Serge is controlled by Fit-Reform and sold only in Fit-Reform Wardrobes. \$15, \$18, \$20 up.

This trademark label, always genuine, is the Fit-Reform guarantee.

Look for label with trademark and price as fixed by makers.

The only Fit-Reform Wardrobe here is at

THE NEWS OF THE DAY

IN CONDENSED DESPATCHES

Brief items from many sources tell the story of the day's events.

BALL GAMES

Winnipeg, June 19.—Saturday's scores: Winnipeg 4, Grand Forks 3; Duluth 10, St. Cloud 5, first game; Duluth 5, St. Cloud 4, second game; Fargo 4, Crookston 1. Sunday, Duluth 3, Fargo 2.

KILLED BY A BASE BALL

Port Arthur, June 19.—Chancey, the nine-year-old son of H. R. Stevens, C. P. R. despatcher at White River, while watching a ball game yesterday evening, was hit on the temple by a batted ball. He died on the way to the Port Arthur hospital.

C. N. R. TRAIN STRUCK A WASH-OUT

Port Arthur, June 19.—Yesterday's C.N.R. passenger train ran into a washout going east at Atikokan. The engine and a baggage car were derailed and a second class car derailed. No one was hurt, as the train was running slow at the time, otherwise the consequences might have been serious. The wrecking train under Supt. Brown, had the track cleared at midnight.

THE TENSION SLACKENS

Paris, June 19.—The strained relations between France and Germany have reached a culminating stage, and for a time the public mind was distracted between reports that the countries were on the verge of a war that would set Europe ablaze and declarations that diplomacy still held a firm grip on the situation. Fortunately the situation was relieved tonight after a lengthy conference between the German Ambassador and the French Premier. This distinctly shows that the diplomatic intercourse has not reached the point of rupture and proves that the exchange of international views has again been brought into normal channels. Inquiry this morning shows that Germany sincerely desires not to place France in a humiliating position over the Morocco affair. The chief point Germany asks is the open door to Morocco, doubt she does not want it through an Anglo-German entente.

A GHOSTLY NOVA SCOTIA CRIME

Halifax, June 19.—Near Digby yesterday, Fred Oniel found the body of Eliza Young in the woods and an hour later his brother Clifford found the body of six year old Mary Ward a quarter of a mile further. The lads were members of a searching party which had been looking for the children for about twenty hours. When found the year and a half old baby was lying on its face, trussed, hand and foot, but still alive. The mouth had been gagged with its own cotton hood rolled and tied across the face with a hair ribbon. The chubby hands were bound under the chin. In struggling the wind had been shoved from the mouth and nose, preventing suffocation. The older child was dead and showed signs of having been horribly ill treated. Altogether the ghastly find points to a hideous story of fiendish and sordid cruelty. In the latter case a burdock leaf was tied tightly over the face and the child's hood over that. The horrible contrivance was finished by a quantity of rice. The body was buried all but the head in the brush. The probable motive for the awful crime is a tangled skein. The baby is the child of Mary Young, who is an aunt also of the elder child. Her husband is supposed to have been a Boston lawyer now dead, but she is living with a laborer named Melanson. Her sister is also dead. The elder child's guardian, Tiller Young of Boston, used to send money for her and was coming to take the children to Boston Tuesday. Mrs. Young says the children were kidnapped, but it is thought she may have appropriated the money and tried to make away with the children. The crowd threatened to lynch her.

EX-MAYOR OF OTTAWA DROWNED

Ottawa, June 19.—Ex-Mayor Samuel Bingham was drowned in the Gatineau river, near Wakefield, yesterday afternoon. His body is not yet found. Bingham was one of the most progressive mayors Ottawa ever had.

HALIFAX FACTORY BURNED
